

The tv airwaves belong to the public not Sinclair Broadcasting. The anti-John Kerry movie amounts to a piece of propaganda and forcing their affiliates to air it overriding local programming is not living up to FCC standards. Just imagine what would happen if Michael Moores' Fahrenheit 9/11 was being forced to air on all NBC affiliates shutting out their local programming! There would be a foul called and rightly so. I think it is very important for both sides to have an equal chance. What Sinclair B. is doing is not making this election cycle fair.
